

June 21, 1987

Dear

Jackie and I want to thank you and praise the Lord for your sacrificial support of our family and ministry during May. (This letter is a little tardy!)

The last few weeks have been adventuresome for us, as we have been entering new doors of opportunity. What is so significant to us is that these doors are ones that we have carried in our hearts for a long time, but knew that we could'nt make them happen -- we just had to wait for the Lord's timing.

Several of them relate to the ministry of prayer, or "prayer mobilization". I have known for a long time that He wanted to use me in this area; I now am on three city-wide and state-wide "steering committees", serving on each in the area of mobilizing the body of Christ into intercession for our nation and for the world.

I believe that corporate prayer and intercession is God's strategy for breaking the bondages of Satan, bringing in fresh revival waves of the Spirit into the land, and mobilizing His people into world evangelization.

And so I feel privileged and humbled to have the Lord count me as needed in the "prayer mobilization" ministry. In addition to the several "steering committees" mentioned above, we also serve with AIMS in the area of prayer.

Will you trust with us that we will be able to walk through these doors of service, and fulfill the task for which the Lord is sending us? It represents a huge horizon of ministry, with many tasks at hand.

Financially, we go on trusting God "one day at a time". Expected income is always considerable lower than expenses, and we still carry a backlog from the initial months of this new ministry. Your gifts cause us to praise the Lord over and over, for His faithfulness and yours too!

The Lord bless you back a whole bunch!

For His global cause,

John and Jackie
